jammen33 wrote on Thu, 10 May 2007 13:40it won't run under wine.You should write at least a Linux-Prog that simulates a running renguard version, 'cause on most Server you get kicked for not using renguard...

So you keep all Linux-Users out of the best Servers.

Normaly, we have the Problem that the game don't run under Linux.

But it's the first time, that a game run perfectly and the game hinders us from playing it...
