Im not saying it clans fault, my clan had 2 cheaters once too. The problem is with shit clans like BBF, where everyone knows that a member cheats, reports it to clan admin or w/e, and the clan says "meh", and in MANY cases, and the most recent one where BBF banned a member who did ALOT of things for 3 months, ROFL. Versus clans (like mine) who auto PERM ban anyone even caught TESTING any type of cheat etc.
