Okay why are you still posting here? & I love the n00bs saying I know nothing, Because I figured out how to do it, by myself. So please, The issue was solved, Stop posting here, and stop saying I dont know what Im doing, I solved it first before any of you. Dont tell me Im wrong, It works fine. Its been tested, I was playing a guy with dial up & experencing no lag with 2 modified guns. [All Server Side]
