Guys renguard does not work on all systems full stop.

it just sad that i and alot of good honest players have one that it doesn't work on.

i myself get kicked three to four times a game and i'm having it easy, some players get a crash three to four mins into a game and some earlier than that.

all this talk about it only kicking cheats is rubbish.

please don't paint everyone with the same brush.

i hope that BHS will release an update to cure this problem soon

till then i'm going to have to kill you all in installments

DJ
