ya reborn i still also need my other questions answered

"i cant get these scripts to work

JFW_Preset_Buy
Kamuix_Announce_Preset_Buy
Ra2Ven_DemoTruck
Ra2Ven_MirageTank

idk what im doing wrong im filling the info out where it says presents name i put the name like CnC_Nod_Apcahe or what ever and the name of the presents but nothing it rather does nothing or crashes when i test them"

also weapon error lower is less and higher is more accurate?
