Effective immediately, people whose posts in this forum are not either asking for help or providing good, positive help, will be denied access to post in all tech support-related forums on this site. People do not come to these forums to hear unofficial answers to their questions.

Furthermore, if you are providing help on any tech issue on these forums, please do NOT link to unofficial 3rd-party websites to download files. The only domains that people should be downloading from are the following:

www.renguard.com
www.blackhand-studios.net
www.renegadeforums.com
www.renforums.com
www.renegadecommunity.com
www.brenbot.com

(Please let me know if any items are missing from this list)

And now, the Wall of Shame...
