Declare war on Iran
Declare marshall law
Pull out of the EU
Introduce compulsary conscription
Eject anyone from the country without british citizenship or a visa
Make more laws to enable the detaining, stopping & searching of non-whites easier
Introduce camps for non-whites (note to self, make sure there is a good supply of gas nearby)
Remove allot of litigation and paper pushing from police policy, and make them less accountable for acceptable forms of restraint.
Dismiss human rights
Make it legal for prisoners to be used for labour
Bring back capital punishment
Make more crimes punishable by death
Promote and try to purify the anglo race
Decrease the public opinion of non-whites (possibly blow up canary wharf and blame some Indians?)
Reward women who have 5 babies which have blue eyes and brown hair
Develop a golden shower fetish
Grow a funny moustache
