Dave Anderson wrote on Tue, 05 June 2007 22:12Quote:SSAOW 1.5 opens with visualstudio.net2003, this is what you need to use.

Visual Studio will convert it to a 2005 project. It doesn't really matter which version he uses. The main difference is when he builds the project under VS2005, .NET 2.0-2.~ becomes a dependency.

Not true, unless the project is .NET in the first place.
