I can't tell you how amused I am that you honestly believe you can come up with something "in the back of your mind" that it took a team of about a half-dozen of the greatest minds in Renegade to create over the course of about 9 months? If you truly believe that, then you are sad, sad, sad... but hey, go for it. If it's truly better, then maybe one day your name will be in lights. But I predict you will follow in the paths of many "tried and failed" before you...
