My god that looks so awesome. The models are so much cleaner than the original game.

I really hope you go all the way through on this and completely remake Renegade.

A few wishes:

Testing on Vista OS.

Playable Super cyborg from tib. sun.

Somewhat decent bots and functionality in skirmish 1 player maps.

Everything packed in a EXE file for easy isntallment, I just got into renegade so I don't know nothing about mods and such.
