Doitle wrote on Mon, 11 June 2007 17:46 There are million dollar operations needed by some people. It's pretty easy to go over your lifetime providance when you are in the hospital. When my little sister was a baby she had a mole on the back top of her head and they thought it looked suspicious so they wanted it removed. It was a 19,000\$ operation, to remove a mole. Think about if you stay at the hospital a long time or need a series of operations.

Canada Healthcare, FTW
