Um, did I have your permission to use that video? fuck no, I can do what ever the fuck I want with non-copyrighted video's saved on my hdd. Thats cheat, 100% pure cheating. In most minds not as bad as using something like bigheads or an aimbot, but to me and many others it is. 2 things:

1)what is a cheat? something that gives a player an unfair advantage right? (well you dont relize the lan exploit is cheating so actually im not sure with you....) If you didnt know, the answer is yes.

2)do those skins do exactly that? YES. Your fucking over people like me who dont need skins to help me play better than you, and I can actually join a pure mod server, can you (ROFL, dont need to answer)?

3)reasons like this skins like thats have been banned on various platforms (renguard, cw.cc etc), but im guessing you dont use renguard.

good day sir
