Considering what I said wasn't meant to be a flame or anything for that such, I just simply see a lot of the smartass shit you say, to fuel the fire and stir more of a problem, which you then say you are trying to end the problems and so on. Make up your mind what you want.

First off, I apologized to you. I confused you with a true idiot on the forums. Second, I'm just making a point that Blazer's "witty" posts are pretty fucking pathetic... as pathetic as most of the insults that get thrown at Crimson by the retards on the forums.
