No one has said, Bad Crimson!

But put the show on the other foot, say you had an arguement with her, or anyone here, and something like happened to you?

Can you honestly say you wouldnt be pissed?

No, you cant. Youd be a bull faced liar to even attempt to tell me that you wouldnt care.

And I caused the problem? By saying I have an opinion? sorry if I'm not some renerobot controlled by Crimson like you are.

If I had an argument with Crimson on these forums like the one recently, I would drop it. There are plenty of reasons not to care about a silly argument like that. For one, its the bloody internet. I say if you get into an argument via text on a message board and it goes on for more than a few days, you should go outside and get some air. Also, I would leave. Why? Again, its a message board and really has no relevance to me what so ever. Its just too bad we live in a materialistic world, where oh my god, humans just can't live without things like message boards and video games!

And you think what she does on these forums makes a difference in my day?

I leave my house, I forget all about Rene Forums.

However, while I'm on the computer, I'm going to voice my opinion, and I dont care more about this arguement, then anymore I care about the rat outside in the garden.

The point is, while Im here, Im going to care.

While Im away, I wont.

Not every person who posts here has no life.

Edit: Not to mention, every message board around is about argueing. So unless you think your so much better then people, what your doing right now is considered argueing.
