npadul30 wrote on Fri, 15 June 2007 12:13 Thanks! But what are they and how do I use them? I know they are scripts from JFW_Scripts.dll

JFW_resource_collector < Make a script zone Script_Zone_All and place it where you wish to unload the tib to gain credits.

JFW_resource_refinery < Have no idea. lol.

JFW_resource_field < Make a script zone Script_Zone_All and place it over the tiberium field then add the script.
