<http://www.renhelp.co.uk>

My tutorial website for Renegade is now online and fully operational. Laeubi is providing fast hosting for it now so it should be online all the time now and faster. There are lots of useful tutorials and more coming soon. More features are coming to the site soon sho check for new tutorials and updated.

If you want a tutorial for something that isn't currently there contact me at GeneralHavoc@Renhelp.co.uk and I'll see if we can write one or find one and upload it. The database is shared by Leaubi's site as well, with his site providing support for German visitors.

If you have a tutorial you want us to host then email it to Tutorials@renhelp.co.uk and we will add it.

We hope the site is useful to you and don't forget to check out the FAQ in the tutorials section for lots of useful information and questions answered.
