Ancient_and_forever wrote on Fri, 22 June 2007 04:54 Nonetheless, the poster you got this off was only messing around, m and wasn't meant to be taken seriously.

messing around? So he faked a screenshot? I smell bullshit. I'm guessing he has spyware and is just embarrassed that he made an ass of himself

"Ad Brite" is known spyware that causes popups by altering normal page HTML. Tell your buddy to run AdAware and stop making false accusations. Next he will say that the forums have goastse popups and forget to mention that he visits gay porn sites.
