OKAY, STUPID RENGUARD HAS ANOTHER PROBLEM

Flawless as it usually is...

I was playing on the same server as I was earlier BCServ 5 on WOL, when it said "disconnected from renguard server", my renegade closed. And now I cannot join renguard, I just keep getting.

"Cannot connect, perhaps your firewall is incompatible with renguard"

So i turned it of and it still won't work.

.....

Can anyone shed some light on this incident?
