I was a Technician who started to repair it...the Orca kept attacking with missiles but I was repairing it fast too. Soon, another Techy joined me in repairing it.

Then the Orca goes behind the building...he comes back after like 30 seconds and kills the turret with 2 MISSILE SHOTS!!!

BANNED!
rofl he's thinking:

"gotta turn my dmg hax on nowz cause they rep too fast!!111!11"
