I'm running RenegadeFDS 1.037 SSGM 2.0 & Brenbot 1.5
in lan mode.

1 when i'm banning the player doesn't get kicked and when he returns neither, he does get the message he is banned. What's wrong? On Mirc i first get the ban message and then 1 not found.

2 Where are the bans kept?

Removing players from brenbot.dat or banlog.brl didnt help.
