Meh i'll just go see that movie at the dollar theater or something, transformers and big movies alike I will see 2-3 weeks after it is released so theaters arent crowded, cause I am sick of going to the movies right after it came out, then have these bratty teenagers play with their cell phones and tell me to stfu when i complain, so then i get the manager and he think's i'm crazy cause he doesnt see any teens playing with cells because they ran off when i went to get him.....sooo....I like sitting by myself or a small crowd in theaters,
