Subject: Forums running slow, you need some bandwidth?
Posted by C4miner on Tue, 04 Mar 2003 23:08:54 GMT

Honestly though, they can be slow at times. Sometimes it seems like they will just go down for 4 or 5 minutes, and I can't click on other things. Other times it takes up to 15 seconds to post a reply or click a link.

It seems pretty random, but the rest of the time it's pretty fast.
