It never ceases to amaze me how troop's counter-argument (besides the obligatory flames) is always a challenge for a 1v1, as if that proves anything other than who can beat who in a 1v1. It doesn't show too much for one's intelligence, and it certainly doesn't prove one to be right or wrong by winning or losing.

Personally, I don't see why everybody gets themselves caught up in this troop drama of dodging and 1v1s. Nobody listens to a damn thing he says, so who cares if he says he's better than you or that you dodged? We all should know by now to take what he says with a few grains of salt. He's an idiot. That's all that needs to be said, and it should all be left alone, but half of you have just as big of egos as troop does. You may actually be trying to prove a point, but you let yourselves sink down to his level because you feel that you need to be the bigger man. Be the bigger man by being the bigger man and just STFU.

As for that n00bstories story, that's clearly not troop. While both authors use piss-poor English, they are nowhere near the same in style. It's a pretty bad fake, and whoever did that is just as stupid as troop is if they think we'd be fooled. Plus, the excessive use of ":D" in that story was a dead-giveaway even without the surrounding rapage of the English language.
