'Those who seek power, seek to abuse it.' ?

That's a fucking stupid quote. Should I stop pursuing my education, so I can get a higher than entry level job, which entails more money and power for me? Should I be an average employee, so I don't move up the ranks? Should I not pursue politics and make a difference in my country because it would give me power?

Reactions like that are why this community is going to hell.

You can't say anything without someone jumping down your throat about it.

I only pointed out the phrase, and what do you go and do? Show yourself to be a complete idiot by blowing it out of proportion.

Obviously, me quoting something doesn't mean i feel that way, but that quote was a bit of a joke at the amount of people wanting to be a moderator...

No, your assumption about my reply is what makes you and others get flamed to Hell because you misinterpret my response.

My reply wasn't meant to jump down anybody's throat. It was my response to the stupid quote. Never once did I go, "how can you be so fucking stupid as to believe that shit?" Which I would have said if I was to jump down your throat.
