Ya i'm 4 years old, how did you know? I dont care if your 38, I'm younger than you and more probably more mature from what we have seen from you, age doesnt mean your smarter, you can be a drunk college drop out for all we know, and big servers? that isnt skill, it;s just point whoring to get mvp and rank, real skill is handling a well balanced team while still taking 2-3 jobs all at once ingame, sitting in a mrls and shooting a ref for 4 hours straight aint gonna prove you gotz skill.

EDIT: it has been proven he is a drunkard, read his signature:

u du da thinkin' and i'll do da drinkin'

Thank you
