I have never in my entire life seen anything so stupid. And that's saying something, my sister seems to break everything she touches. Why the hell do you post a screen shot of yourself cheating? Cheating is cheating, nothing can justify having a cheat loaded into renegade. How the hell can someone say someone can't read when "day r tipng lic dis" is absolutely pathetic. Don't even post again, your stupid little tail of your goldfish jumping out of it's bowl, onto your keyboard quitting renegade and loading a cheat. Then a cat jumped onto your keyboard and loaded renegade and joined the server again wont work, here.

gtfo

please don't reply saying i don't have a mirror. hehe. And I know my grammar isn't perfect.
