So 2 cheaters already and reports of other members like Lacostey cheating as well... I think the old members seem legit, but some of the people they let in over the last year have definitely ruined their reputation on clanwars. Pretty much everybody considers them a cheaterclan over there...

So far they've shown no remorse and have blindly supported Ashy's obvious cheating and flamed people that rightfully accused him... makes you wonder if the clan's really anti-cheat or tolerates them as long as they win them a few clanwars. (I think their win percentage has gone up from a horrible 5-10% to almost 50% since Ashy joined)
