The proof comes from renguard logs showing that he attempted to use a radar hack in game, this was stopped by renguard - these aren't public logs so you won't see them here, but they have been verified as correct from a reputable source.

SoQ always had a good reputation, but with Ashy cheating, allowing real/m0fir3 & Lacostey to play for them and supporting ashy blindly even though his cheats were noticed by basically everyone who played him (and really would have been obvious to any of their players playing with him) their reputation has taken a battering at least on cw.cc

Still believe the majority of the clan is cheat free and respectable, a shame they let the retards in tbh.
