I feel like I'm scouting for the next big actor, but I'm not...

What I'm really lookin for is a new kickass movie made in Renegade with Rp2. Yes, this is a contest, and yes the winner gets a prize.

Basically, make any sort of movie on any subject, again has to be on Rp2. Winner gets some neat personalized stuff added to the map. You got 3 weeks to do it (August 10th is the deadline)

For the full explanation and rules, click here. (Recommend you read it cuz entries that don't fit into the guidelines will be disqualified. All that hard work blown to shit...)

Have fun, hope to see many entries.
