WNxBoMbZU wrote on Fri, 20 July 2007 04:10Yes but there where rumors about a maybe renegade 2 created by EA games on the cysis engine so I guess they scrapped that otherwise they wouldnt give you that support for a cysis mod.

EA is simply throwing scraps of meat at the Renegades. I am pretty sure EA hates the Renegade community which [probably in their secret opinion] persists like a formidable "cancer."

Anyway, something is better than nothing...this mod will kill if done right.
