IMO I think that people should use the search feature to try and find the solution to their problem. If 404 then they can make a new thread but they sure as hell don't bump 5 old threads with the same question in all of them.

Bumping one thread isn't really hurting anything (except our original order of business) but making a clean thread wont hurt anybody, the post count stays the same.

EDIT: @ Cpo64 <- that too
