sadukar09 wrote on Sat, 28 July 2007 14:19 Yes but not as visible as the Nod sniper rifle, the rifle tracer/laser looks like a Railgun shot.

Er, other then the fact that you can clearly tell whether or not it's a rail by looking at them, Sure. We'll go with what you said.

I noticed it in-game, but never really thought about it until you said something. Now I'm gunna go back any play it. Just to go- HA!
