Renegade wrote on Sat, 28 July 2007 16:38I use XP, under windows 2000 mode.

In my opinion, it runs smoother, and you dont really need all the extra "sha-zam" that XP look offers.

I run under classic mode as well. (In regular XP, not MCE) Not that I think its a major performance enhancer but I just don't like the "Bubbles". (MCE has a better looking default scheme than standard XP)
