yea but when you are winning and your team only has 1 more building to destory, WHY THE HECK USE IT!!!

this is what I cant undersatnd...

now if it was the other way around and your team is the one that is screwed then yes, i see all the reasons in the world to use it. but not other then that.

and yes, even with PED on it is still a GDI advantage cause there is 1 way into the barracks but 2-4 ways into the hand...
