No actually he started trying to insult my life when he knows absolutely zero about it, I got a nephew that is getting his second heart surgery within this year and hes only 5, I got a girlfriend, I got tons of friends no matter how much spoony tries to pretend he has a life he wouldnt be trying to use the ol "you got no life" tactic unless he himself has no life, I snowmobile with my friends in the winter and have 10xs more fun than he will ever have, I play around jet skis in the summer out at the lakes with my friends and go boating and throw back a few beers while we play poker or something. He has absolutely no idea who I am to even try and take a stab at insulting me with my life. That is why he wont answer me question about what his life is really about. He knows he has none, and I only play renegade when there is nothign to do I live 6 miles in the country so I cant always be around my friends, but atleast I will make an attempt, I also still have time to take my girlfriend out to the movies and drive her places. If u dont believe this spoony u can fly up here come to my house for a week u will see how much shit goes on. Otherwise dont even try and start shit on my life.

BTW, yes it is the internet but u can hide behind ur computer all you want you would have never said this to my face in real life that is wat is pathetic. Just cause you never had any friends any high school doesnt mean other people cant.
