Quote:I know you get SO ANGRY AT LOSING a computer game that you practically suffer a nervous breakdown and you have to cheat in response just to sleep at night... that alone proves you're a sad, pathetic little geek. I don't CARE what else you do in your free time, because that proves you're a loser, and so does the fact you get so angry and so defensive at the truth of it being spoken to you - clearly, it cuts you all the way to the bone.

Go get angry over a computer game some more, geek. (that's your cue)

damn spoony is just a computer game its only cheating you dont need to get all pissed off over it, geek.
