'Struck a never'? Where did you learn to spell, prison?

Go get angrier about losing a computer game, loser... while you're at it, go have another nervous breakdown about someone calling you a geek. Talk about insecure...

This is the part where you get SO FURIOUS at being humiliated again that you respond by saying what I said, because you're too dim-witted to actually think of a rebuttal and too angry to simply cut your losses and stop posting.

Or you could prove me wrong about what a geek you are, and instead go live the wonderful life you're so desperate to make people think you lead...
