Im on to my second pair within 2 years because I kept running over the wire with my chair. But now that i've been more careful, they haven't caused me any problems at all.

Edit:

Them logitech headphones that gozy has really hurt my ears when I put them on, (My brother use to have them) I really wouldn't recommend those.

Strange, they don't hurt my ears at all and I'm wearing glasses. They're actually very comfortable and keep my ears nicely fresh.

About them feeling cheap, I don't have a clue where u got that from :-S. Maybe a cheap model?

I guess it's all personal preference .

Whenever I put them on it felt like they were really pushing against my ears and it began to hurt somewhat. Also the mic on them headphones cannot be moved except up and down. (So if it doesn't fit your head properly the mic can get really annoying.

Have a look at these.
