Ok. Its m first topic. Im NOT English or American and i cant speak english good. It's my prolem.
I downloaded:
RenegadeFDS(i registered this)
SSAOW(I copyied files to renegadeFDS Folder)
Night Regulator (i Installed this)
And....There's many errors.
I starting my server from renegdeFDS folder.... When this creasting channel...There is an error-Failed to create channel...Creatind channel....Failed to create channel....ETC...
When i configure server from regulator and i want start server....night regulator is updating...in few minutes there is error ,,Runtime Error"...And program shut down.

My questions:
What i must write in server port?
What i must write in remote admin port?
Can u upload for me yours RenegadeFDS folder and correct Regulator? PLEASE! I can do you moderator on server for this (new maps,normal server) HELP ME!
