Xpert wrote on Sun, 12 August 2007 12:30 And isn't clanwars.cc the official Renegade ladder at the moment. I remember reading something like that on the MOTD when going into Renegade. I dunno if it's still there because it has been 2 months since I've played Renegade.

Technically no... the official one is the one which hasn't worked since XWIS and was shaky as hell for some time even before that. XWIS were nice enough to give us a link on the MotD, though.

It may not be the 'official' clan ladder for Renegade, but until someone makes another or gets the official one working again, that's probably how most people will see it.
