razorblade001 wrote on Sun, 12 August 2007 23:54 Well according to my idea, they died out.

But you could instead say that an alien race "planted" us on Earth, and are still to this day watching us. This would explain the UFO sightings around the world.

Fair enough. But I still think they would have given up after Limp Bizkit sold a bazillion albums. If you created a race, and they bought 31 million copies of Bizkit albums, wouldn't you give up on them too?
