SpartnIIFirst, these models aren't for a mod or anything, i just got bored one day and started modeling them, but i am considering making a TS mod for BF1942 if im aloud to. Anyway, tel me what you guys think about it, good or bad, just don't insult them :rolleyes:

NOD-Rifleman

I also have a rocket soldier for NOD but i dunno how he should look or anything, so for the moment he looks like the NOD rifleman, but i did make a Rocket Launcher and missile
