Titan1x77 wrote on Thu, 16 August 2007 20:11 I've released 3 new maps and have one more on its way:

Map Name : Dust_Training

Setting: de_dust

Description: GDI and Nod battle it out on this small map, it has a nice balance of infantry and tank battles, lots of cover allow infantry to travel from one base to the other easily. This is a training map, which means a nice balance of gameplay, but doesn't have all the fancy looks and eye candy.
