CdCyBoRg wrote on Fri, 17 August 2007 03:32 Anyone got a direct link to the program i need to edit scripts.dll? i cant remember the exact name and which thing to download Etc.

Thanks in advance.

You can use a hex editor to edit any binary files on windows:

<http://mh-nexus.de/hxd/>

But I guess it would be much easier to take to take the source code of scripts.dll (which is under GPL), and edit that and then compile and link it with a compiler like MS VC

Well, you decide...
