I need the following and can't seem to find them in always.dat:

Minigun Officer's body and head
Rocket Soldier's head (likely same as above's head)
Shotgun skin
Havoc's extra skins

And if you can point of the start of the names for third person weapons (i.e. the characters have the c_ prefix, the first person weapons have the f_gm_ prefixes) it would be appreciated. Thx for your help.
