Nope, always2 is pretty much empty. But I will go through always peice by peice and see what I find.

Oh I just found the Minigunner officer. I must have overlooked the c_mgo name. I found something named f_gm_shot but it looks more like a pistol. Probably why I ignored it. Ok there are the havoc skins. Oh! And I think I found the third person weapons too! Ok I found them all except the rocket soldier head. Maybe it is attached to the minnigunner officer skin.

Ok now I can finish the GDI half of my skin set. Expect it out soon as I work fast.
