http://www.fileplanet.com/180410/180000/fileinfo/Far-Cry-Full-Game-%5BFree-Game--Ad-Supported%5D

I haven't tried to download it since I already own it, but I heard it might only be available to people in the US.

It's also ad-supported, but if you're cheap and want to complain about a game that's free then there are mods available to remove the ads.
