I have to agree people just forget it, it happened, finding the truth anyways wont bring back 2900 some people back to life, so just remember them and forget any conspiracy or thoery, the point is, people died, like puddle splsher said, in 50 years people will still be saying 9/11 was planned by the goverment, it doesnt matter what the truth is, because like I said, it happened and you cant reverse it.
