You know, you can buy those games separately. Here's the costs:

Half-Life 2: \$29.95

Half-Life 2: Episode One: \$19.95

Half-Life 2: Episode Two: \$29.95

Portal: \$19.95

Team Fortress 2: \$29.95

So if you're just after Episode 2, Portal and TF2 It'll cost \$79.85 separately. Really, you should just buy the orange box unless of course you are specifically after one of those games in the package. But if you're after games which come over \$44.95 combined, you're better off just buying the orange box.
