AoBfrost wrote on Tue, 18 September 2007 10:08Blazer, they had to do something, DNA test show that their kids DNA was found in a rented car which they rented after the "kidnapping" why would her DNA be in the trunk, the TRUNK of the car when they didnt rent it until AFTER she was missing, her DNA wouldnt be in the car's trunk if she was really missing. she was gone before the car was even rented in their story.

you may be right blazer, and I really hope she is alive and kidnapped (better to be alive and kidnapped then dead) but it seems evidence is pointing toward her parents as the culprits.

They just happened to rent the same car as the kidnappers, after the kidnappers had returned it. Highly unlikely, but still plausible.
